

CCTV Surveillance and Flame Detection SIMULTANEOUSLY !!

SMART FLAME DETECTION CAMERA

<p>Full-HD video High-quality Surveillance</p>	<p>Customized Sensor Accurate Detection</p>	<p>Special Glass Maximizing Distance</p>	<p>Sensitivity Control Environment Optimization</p>
---	--	---	--

Helps suppressing fire damage at early stage leading to less damage of life and property, Fire detection made more accurately and rapidly with **customized flame sensor !!**

Smart Flame Detection Camera, with WEBGATE's specialized in-house technology, can detect wavelength of fire or flame to recognize actual fire or flame then it notifies user of fire alarm to help suppressing fire at it's early stage. Contrary to other general flame cameras which only detect the shape and color of flame through image analysis, Smart Flame Detection Camera drastically minimizes false alarm by using special flame detection sensor.

C1080(P)BL-AF-F2

Flame detection result based on sensing method / environment

Sensing method / Sensing environment	Object recognition Detecting the shape and the color of flame	* Flame detection sensor Detecting wavelength of flame
Fire in daytime	Depending on sensing condition	Detection (Normal)
Fire in night	Fault detection	Detection (Normal)
Similarity objects	Fault detection	No detection (Normal)

Tech

* PoC (Power over Coax)

- Cameras can be powered by PoC DVR through coaxial cable
- No need to install power for camera separately

* CoC (Control over Coax)

- DVR can control camera through coaxial cable
- Supports OSD menu, Zoom/Focus control, F/W upgrade
